

SOLID BEARING RODLESS ELECTRIC ACTUATORS

MXE-S

The MXE-S rodless electric screw-drive actuator is designed for applications requiring moderate load carrying and guidance. The MXE-S actuator utilizes two field replaceable solid bearings that optimize stress distribution for optimal performance.

LIGHTWEIGHT ALUMINUM DESIGN

- Clear anodized extrusion design is optimized for rigidity and strength

TRAPEZOIDAL BEARINGS

- Field replaceable bearings with trapezoidal design maximizes bearing surface area with less pressure on bearing surfaces for lower wear

YOUR MOTOR HERE

- Wide variety of standard motor mounts machined to your motor of choice. Includes mounting hardware and couplers
- Inline or reverse parallel (foldback) motor mounting options

STAINLESS STEEL DUST BAND

- Durable, flexible, fatigue and corrosion resistant stainless steel band is magnetically retained. The dust band keeps contaminants from entering the actuator interior, protecting components for reduced maintenance and increased uptime

NON-BINDING BEARING ARMS

- Bearings are tensioned indirectly, providing bind free adjustment

MULTIPLE SCREW TECHNOLOGIES

YOU CAN CHOOSE:

- Solid nuts of engineered resins for quiet performance at the lowest cost
- Ball screws offer positioning accuracy and repeatability with longer life, low-backlash available

Available Options:

Mounting

Mounting Plates; Tube Clamps

Carrier

Auxiliary Carrier, Floating Mount

Sensors

Reed, Solid State PNP or NPN, flush mount, drop in installation

Multi Axis Applications

Applications:

- Adhesive Dispensing
- Applying
- Camera Positioning
- Cutting
- High Speed Flying Cut Off
- Inspecting
- Material Cutting
- Parts Transfer
- Pick & Place
- Product Handling
- Slitting
- Spraying
- Stacking
- Storage, Retrieval
- Sorting
- X-Y Gantry, Multi Axis
- Test Functions
- Test Stations
- and many more
